

CREDENTIALS AND INSURANCE PARTICIPATION

The Keystone Hearing Institute is owned by a Doctor of Audiology. Our owner and staff have experience working in private practice, ENT office, and hospital based facilities. Our two Audiologists have a combined 25 years of experience.

The state licensed, nationally certified audiologist is specifically trained in the measurement and identification of auditory and balance disorders. Our audiologists have attained the Doctorate in Audiology from an accredited university.

As Doctor's of Audiology, we are credentialed by Medicare to provide clinical services when a patient is referred by his/her PCP. Given this, our office may request referrals for your patients who are seeking services in our office.

We participate with:

Medicare	Teamsters	Geisinger Health Plan
Medical Assistance	MAMSI	Gateway Health Plan
